Chairman's Message

Education being the only wealth that one can carry a person becomes richer by acquiring good education thereby enabling the person to have a sound foundation in life. It also enriches the soul with stimulating mental capability to distinguish good from bad. It widens one's vision and provides universal understanding and global living. Good education encompasses instilling moral, aesthetic, athletic and intellectual values in the citizens of tomorrow. India's moral, social, economic and political fibre depends on these future citizens and therefore it is imperative to invest in this 'future' wisely. Keeping this in view the Alard Charitable Trust has been established by like minded people to create equal opportunities to everyone irrespective of caste, creed and financial status.
